White House Squelches Speculation On Bomb Test Delay

Delay In Atomic Bomb Tests Brings Some Speculation

Pacific Atomic Bomb Program Delayed Six Weeks
By President's Order

INTERNATIONAL CRISIS FACTOR (BULLETIN)

WASHINGTON, March 23.—(INS)—The White House refused today to give any specific reason for the postponement of the atomic bomb tests in the Pacific, but moved quickly to squelch speculation on President Truman's action.

Presidential Secretary Charles G. Ross told a news conference that Mr. Truman's action in delaying the history making experiment for six weeks was "no sudden decision."

He said:

"A good deal of the speculation about the postponement is fantastic. No sudden decision was arrived at."

WASHINGTON, March 23.—(INS)—The tense international situation was believed today to be a major factor in President Truman's dramatic decision to postpone for about six weeks the atomic bomb tests scheduled for May 15 and July 1 in the Pacific.

The White House said the tests were delayed because a heavy legislative schedule would prevent the attendance of a large number of congressmen. But Washington observers noted that the postponement also will enable the U. S. to hold back its diplomatic card until world issues to be raised at next week's UNO security council meeting have a good chance of solution.

On the other hand, it was con-

PA NEWC OBSERVES

Discharge papers of men and women who served in the armed forces from Lawrence County registered at the office of Register and Recorder Potter, have now exceeded 7200 it is stated. Probably near 9000 veterans are now back in Lawrence County, it is estimated.

A local resident happened to be passing through Cleveland recently when an Ohio gubernatorial candidate tossed 150 pairs of nylon from the top of a building. Although he didn't stop to try his luck in the mad scramble, he reported to PA Newc that large crowds, mostly women, flung themselves into the melee in pursuit of the green-packaged finery.

In his travels throughout the country district, PA Newc noted many farmers busily engaged in burning brush and other excessive accumulations of brush and debris that had gathered during the winter months. Too much stress, can not be placed on the fact, that proper care must be maintained in building such fires, as a number of the fires had gotten out of control and the entire family was seen, out with their brooms and shovels, attempting to quell the blazes that were rapidly spreading.

Among the neophyte gardeners outside today to try out newly acquired garden tools were the two small daughters of Mr. and Mrs. Howard M. Kirk, Jr., Betsy and Kay, who had a busy time practicing digging in their grandfather's yard on Moody avenue this morning.

Pittsburgh Fire Will Be Probed

PITTSBURGH, March 23.—(INS)—Safety Director George E. A. Fairley today said that an investigation will be launched in Pittsburgh's \$700,000 fire which yesterday destroyed the Wabash Terminal and thousands of tons of food.

The safety director said there was a "strong suspicion" of arson connected with the blaze which still smoldered 36 hours after it was discovered.

Fairley said the fire started in two ends of the building simultaneously and limited a third fire was started in the center.

Trio Of Bandits In Holdup Here

Rob Gas Station And Attendants At Grant And Sampson Streets Early Today

Three bandits at 5 a. m. today held up the Pennzoil Service station, Grant and Sampson streets, and escaped with \$98, according to police headquarters.

Two of the colored men were armed with revolvers. The cash register was looted of \$70.00 and \$28.00 was stolen from Ronald Lewis, 17, 405 Bell avenue, gas station attendant.

LeRoy Parrish, Edenburg, and Albert Barber, West Washington street, were in the station. Parrish was backed into the grease-room but the bandits permitted him to keep his ring.

Pull Revolvers

According to the report made to police headquarters, three colored men drove in a dark colored auto, obtained gas for which they paid. They asked for cigarettes and the trio followed Lewis into the station where two of them pulled revolvers, then robbed him and the cash register.

One of the men noticed a ring on Parrish's finger but the bandits' leader exclaimed: "Let him keep it!"

After staging the hold-up the trio leaped into the car which was driven toward State street hill.

According to a police teletype, similar robberies were committed last night in Youngstown and vicinity.

A theater is to be erected on South Jefferson street and a new city building is to be built at North Jefferson and Grant streets, while the Wallace and Hoyt buildings on the square have also been purchased.

Steel Products Plants Seeking Way To End Strike

WASHINGTON, March 23.—(INS)—Spokesmen for 800 firms making a wide variety of steel products were on record today as believing they should not be held to the 18-and-one-half cents wage increase set for the steel industry.

At a meeting called by the non-union steel coordinating committee headed by Edward S. Evans, Jr. of Detroit, they laid their problems before officials of the National Wage Stabilization Board, the Office of Economic Stabilization and the Office of Price Administration.

The spokesmen contended their firms were "caught in the backwash" of the big steel settlement.

Approve Increase In Salaries For School Teachers

School Board Authorizes Larger Salaries For School System Employees Also

YEAR'S BUDGET IS SET LAST NIGHT

Salaries and wages of New Castle school system employees were increased Friday night, March 22, when the board held a special session at the East street building to consider the budget for the school year of 1946-47. All teachers, save substitutes, and all regular hourly employees were increased \$10 per month. Janitors were increased five cents per hour and all janitors helps the same. The total increases in salaries and wages is approximately \$48,000.

The board approved the budget, which totals \$1,405,698, and on April 4 the budget will go on public display for 20 days. After that it will be adopted. The tax rate for the coming school year remains at 20 mills.

Will Amend Budget

The budget, as presented to the board Friday night calls for \$1,357,698. The budget committee was authorized to amend the budget to conform to the new total created by the increases.

The expenditures of the budget are in eight divisions. General control calls for \$42,385 instead of \$43,583 for 1945-46.

Expenses of instruction call for \$822,663, plus the proportion of the \$48,000 increases which goes to the teachers' as against \$780,722 for 1945-46. The major portion of the increase is seen in teachers' salaries which were increased by the 1945 General Assembly.

Co-ordinate activities total \$37,000. (Continued on Page Two)

Bluebeard In Losing Battle

Basic Defense That All Victims Were Gestapo "Stool Pigeons" Is Under Fire

PARIS, March 23.—(INS)—Dr. Marcel Petiot, the Parisian "Bluebeard," fought a losing battle today to maintain his basic defense that all of the alleged victims of his "murder mill" were Gestapo "stool pigeons."

His brilliant attorney, Jacques Flizot, met his match this afternoon when he wrangled bitterly with a witness who refused to be swayed—Marcel Battu, chief inspector of the criminal brigade which investigated the deaths of 26 persons attributed to Petiot. Petiot claims he snuffed out the lives of 63 persons.

Flizot did, however, manage to keep Battu from entering too much damaging evidence in the record.

Although Battu persisted freely and breathlessly during a two (Continued on Page Two)

Soviet Troops May Quit Iran

TEHRAN, March 23.—(INS)—Premier Ahmad Ghassem Sultaneh announced tonight that direct negotiations with Soviet Russia may result in withdrawal of the red army from Iran before the UNO security council meets in New York on Monday.

Breaking a long silence on the trend of relations between Moscow and Tehran, Ghassem said such a solution was "possible."

The premier said he had received no reports of Soviet troop movements in northern Iran and said they were without foundation. He added:

"I am not concerned over Soviet attempts to postpone the meeting of the security council because the Persian question would come up before the council when it met in any case."

Air Of Confidence And Relief Follows Stalin's Statement

MOSCOW, March 23.—(INS)—Moscow reaction to Premier Stalin's affirmation of faith in the UNO as a serious instrument for the maintenance of peace and international security today filled the Russian capital with an air of confidence and relief.

The "man in the street," who was oppressed by a sense of alarm since publication of Winston Churchill's Fulton, Mo., anti-Soviet speech, breathed more freely after Stalin's calm and assuring statement.

Foreign observers in Moscow saw the generalissimo's statement as a

sign of Russian good will and her readiness to cooperate with other peace-minded nations.

They felt that this cooperation could be assured if the UNO was successful in preserving for the future the principle of the equality of nations rather than the principle of one nation's superiority over others.

Senator Proposes Halt Of Atomic Bomb Tests

COLUMBUS, O., March 23.—(INS)—U. S. Senator James W. Huffman (D-Ohio) said today that he will introduce a resolution in the senate to eliminate completely the scheduled Bikini atoll atomic bomb tests by the armed forces.

Huffman said that President Truman's order postponing the tests in the Pacific from May 15 to July 1 was "all right but it did not go far enough."

The senator branded the atomic bomb experiment, which he said will cost more than 100 million dollars as "silver folly." He added:

"The world does not need the awful effects that would be recorded from the blast to convince it that the atomic bomb is a most destructive weapon."

"If Hiroshima and Nagasaki did not impress the other nations of the world, detaching another super-explosion will not turn the trick either."

Huffman urged that the United States turn its attention from "destructive weapons" to the establishment of a more solid United Nations organization for world cooperation and perpetual peace.

WASHINGTON, March 23.—(INS)—John L. Lewis and bituminous operators were reported "still far apart" today as the soft coal wage negotiators ended their first week of direct bargaining for a 1946 contract.

Lewis' demand for an industry-financed health and welfare fund for his half million miners presented the greatest obstacle to the working out of a new agreement that would avert a threatened strike in the coal fields April 1.

The UMW chief again has proposed the fund be raised through an assessment on each ton of coal mined.

Despite the nearness of the strike deadline, the conferees took a week-end recess in their negotiations to give the operators an opportunity for further intensive consideration of their position.

Spokesmen for the mine owners said they were "still seeking a compromise." (Continued on Page Two)

State Inductions Increased For April

Approximately 9300 To Be Called For Service From State Next Month

HARRISBURG, March 23.—(INS)—Approximately 9300 Pennsylvanians between the ages of 18 and 26 face induction into the armed forces during April under tentative plans scheduled today by state selective service.

Recently, inductions hovered around 3500 men a month. A headquarters spokesman emphasized that the increase was prompted by the need for replacements for discharged veterans, and not by international developments.

Lt. Col. Henry M. Gross, state draft director, indicated lowered physical standards would help the 422 local boards in Pennsylvania to meet individual quotas. During recent months, boards have not met quotas.

Approximately 850,000 of the 1,200,000 men who served in the armed forces during World War II have been discharged, he said.

Stalin's Speech Is Heartening To UNO Delegates

Believe Some Of Tension Surrounding Coming Session Is Dissipated

RUSO-IRAN ISSUE REMAINS PROBLEM (BULLETIN)

NEW YORK, March 23.—(INS)—A broad hint from Tehran that the basic angles of the dispute between Iran and Soviet Russia may be solved over the week-end electrified delegates to the UNO security council scheduled to meet in New York on Monday.

A dispatch from the Iranian capital quoted Premier Ahmad Ghassem Sultaneh as saying it was "possible" that direct negotiations between Tehran and Moscow may result in withdrawal of Soviet troops even before the council meets.

NEW YORK, March 23.—(INS)—Generalissimo Stalin's renewed expression of faith in the UNO heartened delegates today as they prepared to consider the explosive Russo-Iran issue in the security council next Monday.

Although UNO Secretary-General Trygve Lie emphasized that as an international servant he would not comment on statements by national leaders, it was obvious that Stalin had dispelled much of the tension surrounding the council's initial deliberations.

Plans Not Altered

The Stalin statement, while improving chances for a successful council session, did not alter plans for early consideration of Iran's demand for removal of Soviet troops from that oil-rich country.

The Russo-Iranian matter is still listed as No. 3 on the provisional agenda to be submitted to the council, when it convenes at 2:30 p. m. in the Bronx Center of Hunter College, preceded only by reports of the committee on procedure and the military staff committee.

Lie indicated, however, that the council may brush aside the two (Continued on Page Two)

Nazi Defense Effort Balked

NUERNBERG, March 23.—(INS)—Defense counsel for Nazi leaders on trial before the Allied war crimes tribunal were defeated today in an attempt to preach anti-Semitism in the guise of evidence.

Britain's chief prosecutor Sir David Maxwell Fyfe stopped the move when defense asked for permission to submit files of a 1931 Munich court action at which Erich Bishop, a famous expert, was said to have discussed an alleged Jewish "ritual of murder." Fyfe said:

"Prosecution feels there must be some evil reason behind an attempt to stir up hatred against Jews today."

However, Fyfe did not oppose hearing a witness testify that the Nazis ace Jew baiter, Julius Streicher, really had disapproved of anti-Semitic demonstrations.

After a short session court adjourned before ruling on a request of defense counsel to submit "scientific literature" to prove that German anti-Semitism existed long before the Nazis came to power.

Ann Sothorn And Husband Parted

HOLLYWOOD, March 23.—(INS)—Actress Ann Sothorn, blonde "Maise" of the screen, revealed today that she and her actor husband, Robert Sterling, have parted and that there is no chance of reconciliation.

Miss Sothorn said Sterling had moved all his personal belongings from their house.

The couple, married May 23, 1943, have a 15-month-old daughter, Patricia Ann. The actress was formerly married to Roger Pryor, a Broadway actor.

"Robert Sterling" is William Hart formerly of New Castle.

Seven Schools Appear In Lead

Have Total Points Over 1,000 In First Three Weeks Of Sunday School Contest

There are seven Lawrence county Sunday schools that have total points amounting to over 1,000 in the first three weeks of the contest. These schools are the Lawrence County Sabbath School Association, the Wesley Methodist, the St. Paul's Lutheran and the First Presbyterian in the Lawrence County district. The Wesley Methodist, the St. Paul's Lutheran and the First Presbyterian in the Lawrence County district. The Wesley Methodist, the St. Paul's Lutheran and the First Presbyterian in the Lawrence County district.

The weather has been favorable for the first three Sundays which helped the attendance, and also the Sunday schools are better organized and are doing more constructive work to get the absentees from the various classes to attend. There are 70 Sunday schools that are participating in the contest. This means that these Sunday schools are putting forth the effort to not only increase the Sunday school attendance, but to increase church attendance as well and to promote evangelistic effort and Bible study.

Every Sunday school enrolled has now gained points, and these points will increase in number for the remaining five Sundays, culminating with Easter Sunday April 21 which will doubtless be the highest attendance mark for most of the Sunday schools taking part.

Call to go to Africa as a missionary.

Came Here In 1931

Coming to New Castle in September, 1931, from Nineveh, N. Y., to accept the pastorate of the Calvary Presbyterian church, East New Castle, Rev. Fredericks, later in 1933, with the assistance of interested Christian believers, established the present Calvary Gospel Tabernacle, becoming its founder and pastor.

In the spring of 1938 work was begun on the present large tabernacle, which seats several hundred people, with the congregation moving into the structure in the fall of that same year. The tabernacle has been the center of large gospel Bible and missionary conferences each year, attracting speakers from many sections of the United States. The Bible conference work, originally started from a pavilion that was constructed in the spring of 1935 at East New Castle.

sidered possible that President Truman, acting after the optimistic peace statement by Soviet Premier Stalin, may have postponed the tests in an attempt to help soothe the troubled international waters. For three days after the Moscow radio complained of United States use of the atomic bomb as a threat in international diplomacy. The Russian asserted that the U. S. was seeking to establish an "atomic dictatorship".

Commenting on Stalin's latest utterance regarding the Moscow radio, President Truman said he was certain the generalissimo relied upon the world organization as an instrument for world peace.

Following the White House atomic test announcement, Secretary Charles G. Ross said the president "always knew that was exactly the way Marshall Stalin felt about the U. S. It was also believed possible that developments in the investigation of the asserted Soviet spy ring in Canada, which centered to some extent on the atomic bomb might be a factor in the postponement.

Announcement Made

Announcement of the decision was made by Ross on the eve of the gathering of members of the U. N. Security Council for the New York meeting which many believe will determine the life of that organization and of future world peace. Diplomatic observers were not content with Ross' explanation of the purely domestic reasons for postponement, however. Some contended that, in the present diplomatic situation, with army and navy manpower depleted, the atomic bomb is the sole weapon the U. S. has to back up its arguments for the peaceful settlement of international disputes.

If the U. N. Security Council cannot come to some amicable settlement on the troublesome Iranian question—as well as other problems that may arise—the United States might wish to conceal the effectiveness of its ace secret.

It was not doubted that if at the postponed date the international situation has not quieted down, the tests might be canceled. Or it was also held possible they might go on without the presence of foreign experts.

The original schedule permitted representatives of the 11 members of the atomic energy commission of the United Nations to be observers at the experiments. These include Russia, France, Britain, China, Canada and six smaller states.

LONDON, March 23.—(INS)—Generalissimo Joseph Stalin's reaffirming of Soviet faith in the UNO on the eve of the critical New York meeting of the security council was regarded in London today as a tremendous help in clearing the diplomatic atmosphere.

Likelihood of such a procedure is strengthened by the fact that Secretary of State James F. Byrnes will represent the U. S. during discussion of Iran's case.

Stalin's speech was heartening to UNO delegates.

150,000 employees of the firms represented are still on strike and have been since January 21 when the United Steel Workers walked out. Industry spokesmen informed the government officials that one of their group, the Lageset Spring and Axle Co., of Pittsburgh, Pa., was forced out of business by the strike. The other concerns have served notice upon their employees that the companies will be liquidated if the men are not back on the job at a specified date, the spokesmen said.

The industries requested that the government: (1) Adopt a policy requiring collective bargaining on a local level; and (2) Grant immediate price relief for those companies which have already "been clubbed into signing" the 18 and a half cent demand.

Public confidence was aroused particularly by Stalin's call for public opinion and the press to fight against propagandists for war and his declaration that neither nations nor their armies wanted war. YOUNGSTOWN HILL

TRAGEDY OF EVIL THINKING

(This article, written by the pastor, is especially prepared for young people of adolescent age. Many young people allow their thoughts to dwell upon every imaginable immoral evil suggestion, regardless of how low it may be. To entertain such thoughts will cause them to actually do the thing their mind feasted upon. Proverbs 23:7, "FOR AS HE THINKETH IN HIS HEART, SO IS HE." Where sexual immoral thoughts abound they will cause your very eyes to be FULL OF ADULTERY. No matter how SMART you may be to deceive your parents, remember that God sees ALL you DO and THINK. YOUNG PEOPLE! are you going to allow these EVIL THOUGHTS to wreck your life? Do NOTHING THAT YOU WOULD NOT WANT TO BE DOING WHEN JESUS COMES. If you PRAY, TICE this scripture we know you will have victory. Phil. 4:8. FINALLY, BRETHREN, WHAT'S EVER THINGS ARE TRUE, HONEST, JUST, PURE, LOVELY, GOOD REPORT. THINK ON THESE THINGS.

DIVISION IN THE NAME OF CHRIST!

Zachariah saw a vision of the HOLY ONE OF GOD with blood on his hands, and garments, and bruises showing a wounded body and said, "whence cometh these wounds in thy hands and in thy feet?" The answer was, "These are wounds I received in the HOUSE OF MY FRIENDS".

SIN outside the walls will not harm the Lord's Church like the sin of division in the Name of Christ. Let us read the word of the Lord regarding this Sin . . . 1 Corinthians 1:12 . . . Now this I say, that every ONE OF YOU saith, I am of Paul, and I of Apollos; and I of Cephas; and I of Christ. (13) IS CHRIST DIVIDED? Was Paul crucified for you? or were ye baptized in the name of Paul?

We had men in the days of the Lord that wanted to worship the preacher, and we have people in New Castle that worship the preacher. I AM OF PAUL, I AM OF . . . Take my advice and be of CHRIST.

Division is a SIN, and all should be one in Christ. JESUS BUILT ONLY ONE CHURCH . . . Ephesians 4:4-5-6 . . .

"There is ONE BODY, and ONE SPIRIT, even as ye are called in ONE HOPE of your calling;" (Fifth verse) "ONE LORD, ONE FAITH, ONE BAPTISM."

(Sixth verse) "ONE GOD and FATHER OF ALL, who is above all and through all, and in you all."

Can you read that scripture and tolerate division in Christ?

They had VAIN worship in the days of Jesus. "But in vain do they worship me, TEACHING FOR DOCTRINES THE COMMANDMENTS OF MEN." Matt. 15:9. In your worship do you teach the "DOCTRINES OF MEN OR THE COMMANDS OF GOD?"

Examine yourself whether you be in THE FAITH. 2 Cor. 13:5. "Examine yourselves, whether ye be in the faith; prove your own selves. . .

JESUS IS THE WAY, John 14:6.

HE IS THE DOOR, John 10:9.

Beware of false teachers! 2 Peter 2:1. "But there were false prophets . . .

CONSIDER THE CHURCH

1. GOD HAS BUT ONE TRUE CHURCH.

In Ephesians 4:4 we read "There is one body and one Spirit." Also in Colossians 1:18. And he (Christ) is the head of the body and the church.

2. THE CHURCH IS A DIVINELY BUILT CHURCH.

In Matthew 16:18 Jesus said, "I will build my church".

3. CHRIST PURCHASED THE CHURCH WITH HIS OWN BLOOD.

Acts 20:28. Take heed therefore unto yourselves, and to all the flocks, over which the Holy Ghost hath made you overseers, to feed the Church of God, which he hath purchased with his own blood.

4. THE CHURCH WAS BUILT AND SET IN ORDER AT PENTECOST.

Here Christ through the Holy Spirit became the head of the church.

5. THE LORD TOOK MEMBERS INTO THIS CHURCH.

Acts 2:47. And the Lord added to the church daily such as should be saved. Also 1, Corinthians 12:18, But now hath God set the members every one of them in the body (the church) as it hath pleased him.

6. PEOPLE BECOME MEMBERS OF THIS CHURCH BY THE NEW BIRTH.

Psa. 87:5,6. Of Zion it shall be said, this and that man was born in her. The Lord shall count when he writeth up the people, that this man was born there.

7. THIS CHURCH INCLUDES ALL SAVED PEOPLE AND ONLY THE SAVED.

When one is saved from his sin God adds him to the church with all the rest who are saved. Then if he sins God takes his name off the record and he no longer is a member of God's church.

8. THIS CHURCH IS INTERESTED IN SAVING THE WORLD.

The only hope for our sinsick world today is to get back to God. This is the church's business to lead souls to Christ.

9. THE NAME FOR THIS CHURCH IS—CHURCH OF GOD.

Acts 20:28. The Holy Ghost hath made you overseers to feed the Church of God.

The church is named after its Father. Ephesians 3:15. Of whom the whole family in heaven and earth is names.

Minneapolis Man On Youth Program

Rev. Norman Harrison, Outstanding Bible Teacher, To Be Heard On Youth For Christ

In keeping up with their policy of bringing outstanding speakers to the city to address the Youth for Christ meetings, the board of the New Castle Youth for Christ crusade, presents to the youth of the city Rev. Norman Harrison of Minneapolis, Minn., outstanding Bible teacher and author, at tonight's service, which will be held in the First Methodist church, Jefferson at North streets, at 8 o'clock.

Rev. Harrison, who is enroute from Boston to Chicago to hold a Bible conference, has consented to stop over in this city to address the

Youth for Christ group. He has spoken before many of the largest Saturday night youth groups in the United States and will speak here on "This Is The Life."

A new feature of the Saturday night rallies will be the newly organized young men's vocal quartet, which will be heard publicly for the first time tonight. Members of the quartet consist of Don Baller, Bill Stoner, Bill Book and Bud Bush, students at the New Castle high school.

Mary Virginia Mooney will conduct the ladies ensemble during the program. Joseph Proctor will lead the prayers and hymn singing. With Marie Zook at the piano, Bob McNeill directs the meetings each Saturday evening.

March 31, the special speaker on the program will be Jimmie Johnson of Raleigh, N. C., well known young people's worker and evangelist, who travels throughout the states, addressing young people's groups.

PLANS ACTION TO HALT DUMPING OF RUBBISH ON LOTS

Mrs. Pearl Sappington of Centennial street has reported to the county health authorities that persons are dumping rubbish on lots she owns that are situated on the east side of Wood street in Union township. She intends to take proper court action to have the practice stopped, she announces.

Claim No One Will Be Hurt In Bikini Test

Elaborate Medical Precautions Being Taken To Insure Safety In A Bomb Tests

ROSVELL, N. M., March 23.—(INS)—No one is going to be hurt at Bikini. Barring unforeseen accidents or individual errors there will be no injuries—atomic or otherwise—during the weeks of the atomic bomb operation.

Every medical precaution has been and will be taken to guarantee that more than 20,000 Americans participating in the daring experiment return home no worse than if they had been on a springtime air or sea cruise to the Pacific.

That is the considered opinion of radiological expert Dr. Daniel Caboon. It also reflects, he told International News Service today, the considered opinion of more than 30 top-ranking United States physicians who are assigned to the high technical and specialized roles in Admiral Thomas C. Blandy's joint task force.

Want No One Hurt

"We want no one hurt and no one will be hurt if they adhere to our standards for operating procedure," Caboon explained.

Just about anything and everything which could possibly go wrong has been taken into consideration by the Manhattan project medical advisors. We feel we now possess an overwhelming margin of medical safety.

Caboon said that the great atom bomb blast will react on spectators much the same as the tremendous demolition of standard TNT, and that the real danger, if any, to observers, will be in the throwing out of radiological activity.

But he added "we have unbelievable elaborate plans for the prevention of what we call 'hot stuff'."

He continued, "These precautions will include supersensitive meters, advanced parties of radiological teams, tell-tale and all revealing instruments to be worn by every participant, special forms of treatment for any spectators exposed to

radio activity and an overall medical plan which embraces American forces on land, sea and even air.

Out Of Range

"Yes, we've even guaranteed that no airplane pilot will get within range of radioactivity, and if he gets in range his instruments will show him how to get out in a hurry."

Instruments carried in the aircraft will "monitor" dangerous radioactivity in the air through a complex electronics system and second activity-detected warning alarms will sound throughout the plane and the course will be diverted immediately.

Similar instruments will be used on Bikini itself before any observers, except members of the medical staff are allowed to set foot ashore or in the lagoon.

Indiantown Gap Discharges End

INDIANTOWN GAP, Pa., March 23.—(INS)—The army's separation center on the Indiantown Gap Military Reservation closed Friday after handling discharges to 60 officers and men.

Sgt. Robert Boudwin, 346 South Yewell street, Philadelphia, was the last enlisted man to be processed while First Lieut. Daniel J. Sullivan, of Shenandoah, was the last officer according to Col. Lloyd Zuppann, post commandant.

Since June 9, 1945, when the center was activated, more than 450,000 veterans were processed for return to civilian life.

The center was ordered to suspend operation March 1 but small groups of servicemen continued to report on the post with orders for separation.

Another Blue Law Revoked At Zion City

ZION, Ill., March 23.—(INS)—Another blue law, enforced since the city was founded by the late John Alexander Dowd, evangelist, was stricken today from the statutes of Zion.

Latest to pass from the scene was the law forbidding the sale of tobacco within the city limits. The city council repealed the law last night, 10 days after sanctioning the opening of a public motion picture theater.

Under the new law passed by the council, tobacco sales are forbidden to persons under 18 years and cigarette vending machines are outlawed to prevent circumvention of the new statute.

DUFFORD'S

WASHINGTON CALLING

(Continued From Page Four)

Senator Pat McCarran of Nevada, the author of the bill, replied.

A little later, Senator George of Georgia asked whether, under the bill, something could be done about changing the rule that now makes it impossible for the courts to review the evidence on which the National Labor Relations board bases its decisions.

McCarran replied: "Yes, it would change that rule."

That seemed to put it both ways so that everybody would be happy. In any event, the bill was passed without a record vote.

Similar Proposals

Similar proposals are now before the House Judiciary committee. One is the handiwork of Chairman Hattis Summers of Texas, who would put government back to the days of the ex-cart. Summers recently announced his intention not to run again for Congress because he feels so frustrated in his efforts to restore government to the simplicities of the candlelit age.

Representative Carroll Reece of Tennessee is pushing a bill which would submit decisions of the Federal Trade commission to judicial review. If this is passed, the same formula will be used on the National Labor Relations board, the Federal Power commission, the Federal Communications commission, and other agencies. That is why the bill is being watched with such close interest by lobbies for important industrial groups. An interesting commentary is the fact that the author of this bill is the man who seems most likely to be the new chairman of the Republican National committee.

It would be wrong, of course, to present this issue in terms of all black and all white. Reasonable men voted for S. 7 out of sincere conviction. They believe a new uniform system of administrative law is essential to restrain agencies and bureaus that make up their own law as they go along.

Overstepped Authority

Some agencies have in the past overstepped the authority Congress granted them. In some cases, the law creating an agency needs changing. The Wagner Labor Relations act should be amended to end injustices inevitable under the act as it stands at present.

But the way to cure those wrongs is by a direct approach. To increase the stranglehold of law by a sweeping gesture is to endanger the very function of government. As it is today, the law is Washington's chief industry.

There was a time—and it was not so long ago—when major economic decisions for the country were made by corporation lawyers in New York. The heads of certain big law firms set up the holding-company systems which controlled vast networks of power and industry.

That was not the local control that Rep. Hattis Summers talks about with such piety. Absentee ownership and absentee government are both bad. Clever lawyers for powerful interests would like to get the center of power re-oriented once again in Wall Street.

Soldiers in Iran said: "Every Russian acts tough and tries to bully you; when you act tougher, he becomes friendly." Mr. Byrnes, please note.

Nearly 5000 Fingerprinted At City Police Bureau

Four thousand, eight hundred and eighty-eight persons have been photographed and fingerprinted at City Detective headquarters, East street, since the bureau was established by John F. Haven when he was police chief in 1932.

The bureau's first fingerprint operative was the present captain of police, W. G. McMullen. Since then two others held the position, for a time, they being Ray Shwartz (since resigned) and Ralph A. Criswell.

When it was decided to institute the bureau here, Mr. Haven, now mayor, sent the present police captain to Butler where he was instructed in fingerprinting and photography by state police experts.

When police officials deem it necessary, persons, who are defendants in police court, upon conviction are taken to Detective headquarters, where a record of their cause of arrest is made.

They are photographed and fingerprinted. One copy of the arrest containing a photograph and fingerprints is sent to the Federal Bureau of Investigation; another copy is sent to state police and one set kept here.

The records are maintained in such a way that it requires only a few minutes to "look up" the identity of any person arrested. Through

Strikes Threatening Manila's Civic Life

MANILA, March 23.—(INS)—Strikes by municipal workers threatened today to paralyze Manila's civic life.

Groups which stopped work with a demand for a 100 per cent wage increase included garbage collectors, street cleaners, street repairmen, mechanics, chauffeurs and other municipal employees.

City services virtually were at a standstill, and an aggravating factor was the strike of telephone workers which went into its seventeenth day today.

THE GREAT GAME OF POLITICS

(Continued From Page Four)

Mr. Churchill already has achieved a certain success for his idea. For example, one of the most eminent of his critics, after asserting that the American people want no such alliance and denouncing the plan as sure to involve us in British imperialism and colonial policy, followed by declaring that if the Russians persist in aggressive obstruction and bargain breaking, the American people would have no choice save to take the Churchill plan. That sort of admission from one of his foremost critics seems no small triumph for Mr. Churchill.

THE truth is that, despite attack, the closer "fraternal association" idea found favorable lodgment in the minds of a great many who had not really thought of it before. To a large number of citizens, anxious for peace through international co-operation, who had been asking themselves what we were to do if Russia continues her aggressions and refuses co-operation, Mr. Churchill's plan seemed concrete, sensible and practical. Also, it seemed the only plan. No one had anything else to suggest except further efforts "to understand the Russians" and induce them to be friendly. So little success has been had along that line as to be pretty discouraging.

AS eager as any one for Russian friendship and co-operation and as ardent as any one to avert war, Mr. Churchill left in this country one profound and pregnant thought expressed in these words: "If it is clear we are unprepared for and unwilling to fight a righteous war, then an unrighteous war becomes inevitable." To this he added "that if we are prepared and willing to fight the righteous war we will not have to fight at all." It is difficult to see how the truth of this can be challenged. In effect, it means that while we must go to extremes in the effort to conciliate and understand, somewhere a limit beyond which we cannot in self-respect or for our safety and that of the world go.

WE must clearly see that limit—and we must not be bluffing when we do it. We must then be prepared, if the warning is not heeded to embark again upon a righteous war in full knowledge that any further palliation will insure the unrighteous war. The surest way in which we can be prepared for the righteous war is through that closer "fraternal association" with the British which so many of us now reject but which Mr. Churchill believes is bound to come anyhow.

MR. STALIN does not want that. He obviously wants to prevent that. The farther apart the British and Americans can be kept the better for him. Accordingly, there is a strong belief that at the meeting of the Security Council the Russians will be more reasonable, less truculent and demanding. If so, it would seem right to credit some of the change to Mr. Churchill. But whether they are or not, it is to be hoped this country's representatives will stop cringing, abandon coddling and be as firm, though friendly, with Russia as they now talk about being.

Iranian Envoy
Hails Russia's
Pledge To UNOStalin's Loyalty Pledge To UNO
Seen By Hussein Ala As 'Most
Hopeful' Sign

NEW YORK, March 23—(INS)—Iranian Ambassador Hussein Ala Friday hailed a statement by Generalissimo Stalin re-affirming his loyalty to the United Nations as a "most hopeful" sign.

Ala, commenting by phone from Washington on Stalin's pledge quoted by the Moscow radio, that he "attaches great importance" to the UNO, said:

"I consider it a most hopeful and encouraging sign from Stalin. It is thoroughly in keeping with the principles of the charter of the United Nations."

"There can be no doubt that it will help immensely to clarify the atmosphere. Coming as it does just a few days before the opening of the security council in New York, it is indeed a welcome augury."

Stalin Wants Peace

Ala said he was firmly convinced that Stalin sincerely desired peace, and that he was far more "conciliatory and amenable to world opinion and the need for flexible adjustment by nations working for world peace and security than some of his diplomatic aides."

Ala apparently referred to Soviet Foreign Commissar V. M. Molotov and Deputy Foreign Commissar M. Vyshinsky.

Polish Ambassador Oscar Lange, who is his country's chief delegate to the security council, also praised Stalin's declaration of faith in the UNO.

Lange emphasized: "Poland attaches great importance to good and friendly relations between the great powers, particularly between the United States, Great Britain and the Soviet Union."

"Any disagreement between them affects adversely Poland's political and economic position."

Locations ServiceService Offered Five-Day Week At
Headquarters At Red Cross
Chapter House

For persons seeking relatives and friends abroad lost in the holocaust of war, the local section of the National Council of Jewish Women, are offering a locations service, headquarters of which are in the Red Cross chapter house, North Beaver street.

This service is offered to the public five days a week, Monday through Friday. Local workers will be at the headquarters during those hours to accept any applications for locations.

Throughout the country approximately 300 sections are continuing to bring together displaced persons abroad and their American relatives. The local council is also striving to reach this goal.

Following the applications for locations, and the subsequent contact, further assistance will be received through a migration committee, a port and dock committee, social adjustment, and the final step, naturalization.

Mrs. Ted Marlin, is the chairman of the local workers in charge of the locations service.

Two Women Are
Killed By Truck

PITTSBURGH, March 23—(INS)—Army authorities today were investigating the deaths of two women killed yesterday when an army truck turned them against a wall in Pittsburgh.

The women, Johnnie Mae Franklin, 32, and Sarah Bradford, 38, were fatally injured when a truck driven by Corporal Thomas Shibley, 25, a military policeman, struck another car then jumped the curb and trapped the two women.

Shibley was held by police who said he was under the influence of liquor.

Brice Announces
For Assembly PostNew Castle Member Of General Assembly
Seeks Republican
Nomination

JAMES C. BRICE

James C. Brice, assemblyman from the first district of Lawrence county (New Castle) announced his candidacy for the Republican nomination for another term, subject to the Republican primaries on Tuesday, May 21. His statement follows:

"The General Assembly of Pennsylvania can be compared to a business. A new employee has not the experience to discharge the duties of the more important jobs. With experience he increases in value and ability."

"For the past four years I have served the citizens of New Castle in the General Assembly. There is more to the duties of an assemblyman than adding in the passage of laws. He should be on the alert to see that his district gets every advantage possible, and a 'freshman' member is not always capable of getting what his district merits."

"Lawrence county should always have at least one member with experience. In the next session of the General Assembly the second district will be represented by a new member, due to the fact that the present member, W. Sharp Fuller, is not a candidate for re-election."

"No one member of the General Assembly can claim credit for what is done. It is a matter of co-operation and team work. As a member for the past four years I have aided in getting some tangible returns for New Castle."

"Among them are the paving by the state of Washington street, Highland avenue and Long avenue. An increase of the school subsidy to New Castle from \$175,000 to \$350,000 or the equivalent of about three and a half mills of tax."

"The taking over of all bridges in the city over which main highways pass, thus saving the county considerable expense of maintenance."

"Increasing the salaries of school teachers."

"In the coming session there will be a lot of highway building legislation. As a member of the highway committee I have had and will have if re-elected, a voice in the program."

"I ask the privilege of serving the people of my city again in the General Assembly. I am a candidate for the Republican nomination at the primary on Tuesday, May 21."

Grove City May Form
Field Artillery Unit

GROVE CITY, March 23—Grove City will be asked to recruit a field artillery battery in the new National Guard program, it was learned when Lt. Col. Mitchell, of New Castle, conferred here with former local Guard officers. In the old program, the Grove City unit specialized in communications.

Ex-Guardsmen here were of the opinion that a field artillery battery would attract sufficient recruits to meet the proposed strength of 160 men and three officers.

Brides, Babies
Of 18 Countries
Arrive In States

NEW YORK, March 23—(INS)—War brides and babies of 18 European nationalities arrived on the Vulcania Friday for reunion with American husbands of all the states in the union except one—North Dakota.

There were 826 brides and 75 children on the ship—British, French, Greek, Polish, Austrian, Irish, Welsh, Russian and other nationalities. They boarded the ship at Le Havre and Southampton.

A beguiling romance was that of Lt. Henry Covington of Jacksonville, Fla. A paratrooper with the 82nd airborne division, Lt. Covington jumped right into the garden of a French belle named Helene, in Nice. Helene and their five-months daughter arrived on the Vulcania.

One of the husbands who met the ship had a serious problem. He didn't know how he was going to teach his wife baseball. The romance began in Maastricht, when Sgt. Herbert Stein of New York City tried to teach pretty Marie Jose the difference between a hunt and a home run. Now Mrs. Stein is to go with him to Cocoa, Fla. for his spring training—and presumably to learn about baseball.

Kiwanis ClubWHO PAID THE ROAD TAXES
WHILE RATIONING WAS ON?

That old "A" ration didn't permit much driving during the war. It was necessary of course, and motorists conformed cheerfully, but who paid the gas and oil taxes while pleasure cars were more or less off the highway? A little matter of two billion dollars if you want figures.

The answer is trucks. Trucks had to operate to keep things moving and they did, to the tune of two billion dollars in taxes in the United States and to use a colloquialism, "that ain't hay."

In peace time trucks account for only 17 per cent of the total number of motor vehicles registered, but they pay 32 per cent of the road taxes. That means more and better highways for every motor vehicle.

Quarter-Final Tilts Packed With Thrills In Tournament At "Y"

Columbus Club Upsets Ellwood Socials; Fannins, Pulaskis, Falcon Get Wins

Another Packed House
Watches Four More Tournaments

"Sudden death" was again meted out at the City-County tournament last night as four more entries in the big match play saw their chances blighted and die as the teams thrashed through the quarter-finals before another jammed house at the "Y" floor.

In the upset of the night the local Columbus Club brushed past the strong Ellwood Socials, 32-28; the Fannins took a real thriller from the East Brook Boosters, 24-23; K. Pulaskis secured five straight wins, 48-19, and the Polish Falcons downed the Suburban Variety Five, 42-34.

First Game
The Fannins-East Brook clash was a thriller right down to the wire as these two evenly matched fives fought with everything they had to stay in the running. With the count 24 to 23 in favor of the East Brook entry and but five seconds to go, Eddie Nahas, Shenango coach, intercepted a Booster pass and dumped in the field goal that gave the contest to his team, 25-24. In a Rover Boy finish.

C. Jamenson of the Boosters and Santangelo of the Fannins, each with nine points, paced their respective teams.

Pulaskis Too Tough
Freddie Wimer and Joey Cooper set their sights in the second fray of the evening, blazing away with machine-gun rapidity to propel the K. Pulaskis quint to an easy 48-19 win over the Besenme Indians. This double-barrel combination, scoring 33 points between them, was too much for the Indians, who couldn't cope with the powerful K. P. attack.

The Al Gonet machine strengthened their chances to be one of the finalists of the matches.

Specials Told
At Columbus Club five, owning plenty of scrap and drive, pulled the upset of the evening, dumping the Ellwood City Shelby Socials in the third pairing of the night, 32-28.

This was the big game of the evening and the locals played fine ball to turn back the Tube City entry. Two minutes remained in

the tilt with the score snarled at 28-18 when rapid loopers by Adams and Gennock led the contest for the New Castle quint.

"Rags" Gennock, with 13 points, was the high man in the game, while Sterling of the Ellwood five, got a total for the evening. Big Joe Dougherty was held in six markers, and the two Tuber forwards, Gonnus and Friedhoff went scoreless, hurting the Ellwood cause.

Falcons Continue
The finale of the night was a whirlwind battle between the Polish Falcons and the Variety Five, a game that the Varieties almost upset in another upset.

The "kids" battled the more experienced Falcon club right down to the final three minutes of the game when the height and reserve strength of the Polish led to victory by 10 points to overcome.

The halftime score was 17-17. Zubukowski and Stan Grybowski marked the Falcons, with 14 and 10 markers respectively, while B. Tanager of the Variety quint racked up 10 points for his cause.

Semi-Finals Monday Night
The tournament, narrowed to four teams, will move into the semi-finals Monday evening with the first clash beginning at 7:30.

The opening tilt will pair the Fannins against the Polish Falcons, while the K. Pulaski club will tangle with the Columbus passers in the second game.

Final game of the tournament will unfold at the "Y" floor, Wednesday, March 27. Another record crowd was on hand last night to witness the tilts and the semifinals and the grand finale are expected to really pack in the fans.

**Expect Action
In Arena Bouts**

Wolfe And Zulka Have Won
Bouts Here; Tolt Opposes Baldwin Of
Coea; 'is

Forty-eight bouts remain until Johnny Zulka of Altoona and Joe Wolfe of Pittsburgh, rival amateur welterweights, meet in the feature bout of a fast-paced program that will contain eight bouts Monday night.

Joe fought a masterful fight against the rugged Henry Owens who won a decision over tough and game Mark Duvall. Whether his brain can overcome Wolfe's class will be an enigma until they crawl into the ring.

Johnny Tolt, who flattened Willie Jefferson here using technical methods, all to a purpose to beat Owens, who will take on Billy Baldwin of Coraopolis in the semi-final. It will be Billy's debut here. They weigh 135.

Les League, product of hometown, will take on another new comer, Joe Jackson of Coraopolis, and Carl Toback of Pittsburgh and Bat Lapinsky, Beaver Falls, who both have boxed here, meet in a 147-pound setto.

Gibbons On Docket
Nick Cipari of Beaver Falls, who engaged in a rough and tumble brawl with success over Ralph Kinkela, will have his work cut out for him against Larry Polce, Monaca, who found Dan Demico easy two weeks ago. They box at 160.

Chuck Gibbons, one of the classic boxers yet to box here, will take on Jesse Scotts of Coraopolis at 140 and because of the improvement Chuck has shown, many Ellwood fans will follow him to the Arena Monday night.

Clyde Mayberry of Coraopolis will oppose Joe Harris of Youngstown at 118 and Mark Johnson of Monaca will swap blows with Joe Berne of Pittsburgh in the 126-pounder.

Larkin Beats Nickie Moran

Tipps Fights His Usual
Style And Easily Wins
Over Moran Second
Time

By BILL CORUM
International News Service Sports Editor

NEW YORK, March 23.—There wasn't much contest to the Tipps-Larkin-Nick Moran ten-round boxing match in M. S. Gordon last night, so we aren't going to have much to say about it. Larkin has beaten Moran twice and could it necessary keep on doing it every week. Mondays through Saturdays, for the rest of his life. Or of their lives.

Larkin has heart and practically nothing else to offer against a ring man of Tipps's high caliber. When the count is about the highest possible, but win or lose, the Garfield veteran always manages to leave you with the same feeling. That he loves fighting and that he is a fighter.

Tipps, a 35-year-old, 160-pounder, is a picture until he's in trouble. So he is sure, on the strength of his new victory, to get a really rich and important match before long. That is, with somebody like a Graciano, Servo, Robinson or Beau Jack.

When one of these four is the same old story of "the gunner" meeting another of his frequent defeats.

For the "joy of fighting" hot and heavy is something the Rocky Graziano and Beau Jacks understand quite well.

Keep On Fighting
Still, Tipps is a fighter and every move is a picture until he's in trouble. So he is sure, on the strength of his new victory, to get a really rich and important match before long. That is, with somebody like a Graciano, Servo, Robinson or Beau Jack.

Reveal Soviet Spy Operations Started In '43

Cipher Clerk Says Espionage Began In Canada With Establishment Of Embassy

MONTREAL, March 23.—(INS)—Igor Gouzenko, a cipher clerk in the Russian embassy, revealed Friday that Soviet Russia began to conduct her Canadian spy activities as soon as she established the embassy in Ottawa in 1943.

Gouzenko, whose revelations to the Canadian government touched off the investigation which thus far has resulted in the arrest of 14 Canadians on spy activities, testified at the hearing of Fred Rose, Communist party member of parliament and one of the defendants.

The Russian, a short, chunky dark-haired man, said he came to Ottawa with Col. Nicolai Zabolov, Russian military attaché, in 1943 solely to code secret information and send it to Moscow.

Asked Special Prosecutor Philippe Brault who conducted the examination:

"Why couldn't you get the information from the Canadian government?"

"Because," answered Gouzenko, "we wanted secret information."

Super-Secret

The Russian described the code room in the embassy as "super-secret, with secret steel doors, special walls and barred windows."

He said that only he and Col. Zabolov, recalled to Moscow shortly before the existence of the Russian spy ring was revealed, knew the code by which information was sent to the Soviet capital.

Gouzenko testified that most of the information was cabled abroad. He added, however, that once or twice a month it was placed in diplomatic pouch and taken to Moscow by special courier.

Gouzenko's appearance was in a courtroom barred to the public. Special details of Royal Canadian

mounted police guarded the corridors beyond which spectators were not allowed to go.

Shortly before the hearing opened, the Russian was driven to the police court building in a heavily guarded car. His late arrival slightly delayed the opening of proceedings by Judge Rene Thaberge.

Heard first was the case against Rose who, with Dr. Raymond Boyer, McGill University chemist, is regarded by police as the "big shot" among persons already arrested in the investigation.

On \$10,000 Bail

Both men are charged, along with the others, of giving secret information to Soviet agents. They are free on \$10,000 bail pending trial by jury.

A curious development in the case is the decision by the government to call Dr. Boyer as a witness against Rose.

Government officials indicated that the most strenuous efforts will be made against the short, mild-mannered Rose who goes out of his way to announce that he is a Communist, though he is elected to parliament on the Labor-Progressive party ticket.

This follows the announced policy of the King government to proceed most vigorously against those Canadian Nationals who violated their trust, Rose, because he was a member of parliament, was guilty in the government's view, of the most serious breach.

Secretary Byrnes Will Take Part In U.N.O. Iran Case

WASHINGTON, March 23.—(INS)—The state department revealed today that Secretary of State Byrnes will personally take part in the Soviet-Iranian dispute when it comes before the United Nations security council next week.

Byrnes' decision was revealed by the special assistant, Michael J. McDermott.

McDermott said that Byrnes does not know exactly when he will leave for New York but that he will be there at the opening of the U.N.O. council meeting, now tentatively scheduled for 2:30 p. m. (EST) Monday.

At the opening session, Byrnes will make a statement of welcome, and read a message by President Truman.

Soviet Ambassador On Courtesy Call At White House

WASHINGTON, March 23.—(INS)—Soviet Ambassador Andrei Gromyko called on President Truman at the White House Friday but official spokesmen said his visit had nothing to do with the Iranian crisis.

The White House said Gromyko made a "courtesy call" on the president.

Gromyko was with the president only about three minutes.

As he left the White House, the ambassador said in response to questions of reporters that he had requested the appointment.

"Did you talk about the Iranian situation?" he was asked.

"No," the envoy replied.

"Did you bring any note to the president?"

"No."

Presidential Secretary Charles G. Ross said the appointment was arranged by the state department and that Gromyko had simply wanted to "pay his respects" to the president.

The House Military committee, it was disclosed today, has approved a bill by Rep. Price (D-Ill.) authorizing the secretary of war to inter the remains in Arlington cemetery.

The measure provides for burial "near or beside" the remains of an "unknown American" soldier of the First World War.

The committee amended the bill to provide for the burial of an "unknown American" rather than the suggestion of Secretary of War Patterson.

KITCHEN IS BEST PLACE TO PUT REFRIGERATOR

To get the maximum service and satisfaction from a refrigerator, the consumer should consider its placing and cost of operation.

For greatest convenience, the refrigerator should be in the kitchen near the place where food is prepared and served. The side on which the door is hinged influences the placing. It is easier to have the door opening next to a work surface than having to reach or walk around the door to place the food on the table.

A refrigerator needs space around it to allow for good circulation of air. Eight to 10 inches above and three to four inches back is advisable. A separate wall outlet near the refrigerator is essential. For protection and efficiency, the refrigerator should be on a separate circuit and wired heavy enough to allow sufficient current to run it.

The cost of operation depends upon the rate of use and prevailing rate of operating power. The size of the refrigerator has little to do with its operating cost. A small over-crowded refrigerator costs about the same to operate as a large one that is properly filled. The cost depends upon the length of time the unit runs during a month.

Among the factors influencing the length of time the unit runs are: Temperature at which food compartment is kept; temperature of food at time it is put into the cabinet; number of times door is opened; amount of food and its arrangement in cabinet; and age of refrigerator.

Determine Policy For Peron Regime

WASHINGTON, March 23.—(INS)—The United States was revealed Friday to have determined on a policy of regarding the rise of Peron in Argentina as a continuation of the present administration.

The question arose in connection with the evident election of Peron to succeed President Edelmiro Farrell, an administration regarded by State department officials as merely a tool of Peron.

Evidence of the United States attitude, came in messages reportedly sent to all Latin-American governments aside from Argentina to the effect that the United States will not enter into a treaty of mutual assistance with the Peron administration.

This is the same policy enunciated in regard to the Farrell administration, a policy which forced indefinite postponement of the proposed Rio de Janeiro conference.
